We have the staff team of Manager, Warden cum teacher, Cook and Security guard in our children home. The children are growing with all-round development and receiving good education to build their foundation for the future to stand as real faithful citizen. Yearly twice we use to arrange holiday trips and excursion. Besides weekly twice non-veg curries they enjoy the dhal and vegetables, fruits, milk and butter milk is also provided. With this nutritious diet children are very healthy and bold to achieve their goals. Some of the children wants to become as Software Engineer, Teacher, Police and Pastors in their careers. They go to school regularly and stand with competitive spirit and also participate in the school curricular activities. They enjoy their birth days and festivals with new clothes and special meal.

Thus the home is a shining light to the poor and needy orphan. We strongly believe that Education is a asset in every one lives. So with this motto we have bought them to our orphanage. Children are very Happy. If we do not educate these street and orphan children in a proper way there is a chance to become anti-social elements. Without your generous support it is very difficult for us to serve the destitute and needy. Thanking you for supporting the noble cause.
